

Love You Forever by Robert Munsch

[Love You Forever And My Two Sons](#)

The mother sings to her sleeping baby: Ill love you forever / Ill love you for always / As long as Im living / My baby youll be. She still sings the same song when her baby has turned into a fractious 2-year-old, a slovenly 9-year-old, and then a raucous teen. So far so ordinary--but this is one persistent lady. When her son grows up and leaves home, she takes to driving across town with a ladder on the car roof, climbing through her grown sons window, and rocking the sleeping man in the same way. Then, inevitably, the day comes when shes too old and sick to hold him, and the roles are at last reversed. Each stage is illustrated by one of Sheila McGraws comic and yet poignant pastels. (Ages 4 to 8) --Richard Farr

My boys and I have had this book for more than 18 years. It has always been our favorite. When they were toddlers the boys especially loved the rhythmic song that the mother would sing to her child as he went from infant to toddler to little boy to teenager to a grown man. And the illustrations are fabulous -- The boys got a kick out of the realistic mischief the boy in the book would get into. Each of us can still recite the song perfectly. I must have read that story 100 times! And although I still have the book, it is pretty tattered. Every since that time I planned to share this story with them when they became adults. Now that they are grown (19 & 22 years old) they still remember how I used to read to them all of the time, but the one book they actually remember the title of is Love You Forever. This story of the cycle of life, and the love between a mother and her child is absolutely beautiful. I recently ordered 2 hard-cover copies to give to them as gifts -- I know they will be thrilled.
